Milan Wooded Contemporary

This beautiful contemporary home sits at the top of a long, private driveway, on a 10.89 acre property, overlooking abundant landscaping, mature trees, and stone walls with a huge wraparound deck that becomes its own outdoor living space. Built in the style of a Deck House, this home features characteristics of mid-century design: Post & beam construction, natural woods, walls of windows, and an open floor plan. Inside, you will be greeted by a sunny kitchen with stainless steel appliances, and a dining room that flows into a large living area with beamed ceilings, wood floors, and a wood-burning fireplace. The main floor also houses the master bedroom and bathroom with jacuzzi tub, powder room, and a mud room that leads to the back deck with sauna. The above ground lower level houses two more bedrooms, an office, a second family/living room, and two full bathrooms, one with steam shower. A tennis court, gazebo, shed, detached 2-car garage with second floor, and wireless dog fencing complete this desirable offering. EXCLUSIVE
