Staatsburg Farmhouse

This former saddle barn was part of a farm that served the Mills Estate, and dates back to the late 1700s. Its 1958 transformation into an artist's home preserved the barn's original stone foundation & beams. In 2014, the beautiful light-filled kitchen underwent a renovation, a porch was added, and the exterior was repainted. The living room with beamed ceilings has a cozy propane stove and custom-built cabinets to hold portfolios and paintings. The kitchen has three sides of windows, stainless steel appliances, and sliding glass doors to the porch offering unobstructed views of the backyard and neighboring fields. Additional living/recreation room can be closed off with pocket doors, and a study/den is privately tucked away. There is a full bathroom on the first floor. Upstairs, you will find a master bedroom with ensuite bath, an additional bedroom & a third room with a closet. Amenities include solar panels on the roof, an efficient Buderus furnace, second floor skylights optimizing the natural light, abundant mature perennial gardens and raised garden beds in the yard.
